WHO AM I?

I graduated in May, 2019 with mostly the knowledge of Algorithms and Data Structures & Web Development. But as of now, I have developed a fully functional Django Web Application for the UK Real Estate Market. From Design to Deployment, I did it all. And completion of this one project has instilled in me such confidence that I believe I can develop any web application, given the idea. Contact me if you got an Idea and I will make it a reality!
